

governments and the State Patrol to the federal government. I'm not saying it's going to happen, but I did mention that a vendor for this computer goes away in '95. If the machine broke down, I'm not saying it would, but if it did local and State Patrol couldn't communicate with the federal government. That's the major thing the switcher does is that. It gives the information...it's the bridge between the federal and the state and the state and the local governments is what it is.

SENATOR ROBINSON: Okay.

SENATOR HALL: Thank you, Senator Robinson. Senator Beutler, your light is next.

SENATOR BEUTLER: Senator Moore and Senator Schellpéper, if I may.

SENATOR HALL: Senator Moore, if you'd respond, please.

SENATOR BEUTLER: Senator Moore, in order to fund this particular amendment, which of the revenue bills that we advanced do we need?

SENATOR MOORE: That's always a matter of opinion. I can only give you all the situations that I've put down on the blue sheet. Now which ones do you need? I have always argued at the very minimal you need LB 491, LB 815, and LB 22. LB 741, I mean it's not a deal breaker either way. Obviously the fact, but it amounts over time. LB 741 does help the situation out four years from now. Do you need LB 741 to balance this year? No, you don't.

SENATOR BEUTLER: But you need LB 22.

SENATOR MOORE: Well, I mean the argument can be made if you want to live in a...the argument can be made if you want to live in a cave you wouldn't actually need LB 22. As you can see at the bottom of the blue sheet, you're right at about 3 percent if LB 22, LB 98, and LB 741 don't pass. But you have a \$90 million problem in 4 years if you do that. I mean I'm sorry I can't give you a direct answer to your question, but it's so riddled with assumptions I'm hesitant to give you a flat answer.

SENATOR BEUTLER: In your opinion, what would a reasonable person vote for in terms of revenue increases in order to be in
